10 Step Program for "Acryli-holics"

Our 10-Step Program will help your natural nails grow strong and beautiful so you won't need artificial acrylic nails.

At Village Nails we don't do acrylic nails simply because they are not good for you. They destroy your nail beds, making nails thin, brittle and dry. Plus, most artificial nails are made with dangerous chemicals. This is the reason why they are not recommended during pregnancy and that technicians wear a mask when they apply or fill them.

We gently remove your artificial nails, and rejuvenate your nails to be naturally gorgeous and ravishing!

Just pre-purchase 10 Village Manicures, come in every week, or every other week, and we will apply nail products specially formulated to help your real nails grow healthy and strong. And you'll soon have a whole new "set" of dazzling beautiful natural nails!

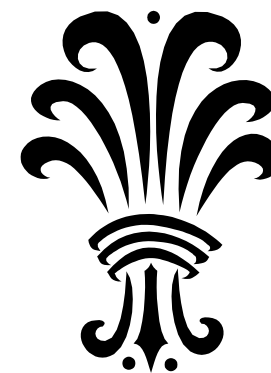

10 Village Manicures and Acrylic Removal \$230 (a \$40 Savings!)
